Distribution Rate Per Unit	\$ 0.01175	\$ 0.01175	\$ 0.01175	\$ 0.01175	\$ 0.04700

Note: On March 1, 2001, Permanent Health Fund (PHF) purchased units in the newly created General Endowment Fund (GEF). The PHF no longer invests in individual securities except for GEF units and a negligible amount of cash. The PHF, therefore, is actively managed to the Endowment Policy Portfolio through its investment in the GEF. The Investment Summary includes the summary activity of PHF's ownership in GEF.

Year End Commentary

The PHF is actively managed to the Endowment Policy Portfolio, UTIMCO's computed benchmark for endowment funds, through its investment in the GEF. Total net investment return for the year was positive 18.68% versus the neutral policy return of positive 15.06%.

Third Quarter Commentary

The PHF is actively managed to the Endowment Policy Portfolio, UTIMCO's computed benchmark for endowment funds, through its investment in the GEF. Total net investment return for the quarter was positive 0.04% versus the neutral policy return of positive 1.89%.

Second Quarter Commentary

The PHF is actively managed to the Endowment Policy Portfolio, UTIMCO's computed benchmark for endowment funds, through its investment in the GEF. Total net investment return for the quarter was positive 4.79% versus the neutral policy return of positive 2.65%.

First Quarter Commentary

The PHF is actively managed to the Endowment Policy Portfolio, UTIMCO's computed benchmark for endowment funds, through its investment in the GEF. Total net investment return for the quarter was positive 7.36% versus the neutral policy return of positive 5.58%.
