### Audit and Ethics Committee Report

Mr. Rowling asked Mr. Nye to give a report from the Audit and Ethics Committee. Mr. Nye stated that the Audit and Ethics Committee met on January 23, 2008. Tom Wagner, engagement partner, presented to the Audit and Ethics Committee the Deloitte & Touche LLP Audit Results and Communications letter and answered questions related to the financial statements for the Corporation. Deloitte & Touche LLP issued unqualified opinions on the August 31, 2007 financial statements. The Committee approved the Deloitte & Touche LLP's Financial Statement Audit Results and Communications and the audited financial statements for the Corporation, and recommended that the Board approve the same. Upon motion duly made and seconded, the following was unanimously adopted:

RESOLVED, that Deloitte & Touche LLP's Financial Statement Audit Results and Communications for the Corporation for the year ended August 31, 2007, be, and is hereby approved in the form as presented to the Board; and further

RESOLVED, that the annual financial statements and audit report for the Corporation for the fiscal years ended August 31, 2007 and August 31, 2006, be, and are hereby approved in the form as presented to the Board.

Mr. Nye continued with the report from the Audit and Ethics Committee Meeting. Also presented at the Committee Meeting were the unaudited Financial Statements for the three months ended November 30,

2007 for the Investment Funds and the Corporation, and an update by the UT System Audit Office. At this time, Moshmee Kalamkar and Dean Metzger of the UT System Audit Office were introduced. They will jointly be taking over Amy Barrett's responsibilities. As part of the update by the UT System Audit Office, a recommendation was made for the Committee to approve hiring Barb Davison with Investment Training and Consulting, Inc. (ITCI) to assist the UT System Audit Office in developing a "risk-focused" audit plan to review the investment activities at the Corporation. The Committee approved a proposal for two audits, one related to Internal Fixed Income and one related to Internal Derivatives.

Mr. Nye also presented the Audit and Ethics Committee report for the meeting held that morning. He stated that the Committee met prior to the Board Meeting to discuss and approve the recommendation of Mr. Zimmerman to hire a Chief Compliance Officer (CCO) for the Corporation. Mr. Zimmerman proposed, with the concurrence of several UT System staff, that Cecilia (Cissie) Gonzalez be hired as the Chief Compliance Officer. The Audit and Ethics Committee approved Ms. Gonzalez for the CCO position, as well as continuing her role as the internal General Counsel for the Corporation, with a new salary amount to reflect her additional duties. The CCO will report functionally to the Audit and Ethics Committee, and administratively to the CEO. The Audit and Ethics Committee concurred that Ms. Gonzalez is ideally suited for this position. The Committee however, made it clear that although Ms. Gonzalez would now be internal General Counsel and Chief Compliance Officer for the Corporation, she would maintain dual responsibilities, reporting to Bruce administratively and as internal General Counsel, and functionally as CCO to the Audit and Ethics Committee with her salary determined 100% by the Audit and Ethics Committee. Mr. Rowling reiterated that Ms. Gonzalez has a direct line to Mr. Nye and Mr. Rowling at any time for all compliance issues. Mr. Zimmerman thanked Joan Moeller for doing a great job as Compliance Officer and expressed appreciation for the excellent compliance program she created and has maintained for the Corporation. Mr. Nye left the meeting at this time.

### **Endowment and Operating Funds Update**

Mr. Rowling asked Mr. Zimmerman to present the Corporation's endowment and operating funds update. Mr. Zimmerman reported performance numbers as of the end of the quarter, November 30, 2007, and briefly mentioned December 2007 and January 2008 numbers. The net performance for the one-month period ended November 30, 2007, for the Permanent University Fund (PUF) was -2.27% and for the General Endowment Fund (GEF) was -2.19%, versus benchmark returns of -2.17% for each fund. The net performance for the one-year period ended November 30, 2007, for the PUF and GEF were 14.73% and 15.26%, respectively, versus benchmark returns of 11.64% for each fund. The Intermediate Term Fund's (ITF) performance was -1.65% versus its benchmark return of -1.91% for the one-month period, and was 10.35% versus its benchmark return of 6.85% for the one-year period ended November 30, 2007. Performance for the Short Term Fund (STF) was 0.42% versus 0.47% for its benchmark return for the onemonth period, and was 5.37% versus a benchmark return of 5.17% for the one-year period ended November 30, 2007. Mr. Zimmerman reviewed portfolio policy ranges and policy targets, and then presented the Market Exposure chart showing market exposure and deviations from policy targets within tactical policy ranges. Mr. Zimmerman continued by presenting a private markets exposure report as of November 30, 2007, and then reviewed the Funds in a new reporting format with the new categorization grids, comparing asset class and investment type targets, ranges and performance objectives. Also presented were a comprehensive derivative report as of November 30, 2007, and a report on investment transactions made under the Delegation of Authority for the period beginning November 16, 2007, and

ending January 15, 2008. Mr. Zimmerman, Ms. Iberg, Mr. Myers, and Mr. Yoeli answered the Directors' questions.

### Organization Update

Mr. Rowling asked Mr. Zimmerman to continue with an update on the organizational structure of the Corporation. Mr. Zimmerman noted that Ms. Iberg had been formally asked to take over responsibility for the Public Markets area. Presenting the most recent organization chart, Mr. Zimmerman announced new hires in several of the investment areas. He asked Bob Schau, the new Director for Real Estate Investments, to introduce himself. Mr. Schau gave a brief background of his career and answered the Directors' questions. Mr. Zimmerman next presented and discussed the Corporation's actual expenses vs. budget for the first quarter of 2008, near term projects including facilities build-out, the individual endowment accounting system, the investment process, including the formation of an internal Investment Committee, and future travel plans for Staff.

### **Marketable Alternatives Presentation**

Mr. Rowling asked Ms. Iberg to give a presentation on the Corporation's Marketable Alternative Investments (i.e., less correlated and constrained investments). Ms. Iberg introduced each of her team members, discussed industry trends, presented program strategy, objectives and results, and manager classifications. She also discussed future plans for the Marketable Alternative Investments area. Mr. Zimmerman, Ms. Iberg, and Mr. Ruebsahm answered the Directors' questions.

The meeting was recessed at 11:30 a.m. The Board of the Corporation reconvened in an open meeting at the same meeting location at 2:05 p.m.

### **Pooling Private Investments**

Mr. Rowling asked Mr. Shoberg to present the next item. Mr. Shoberg explained that the Staff was seeking approval of its recommendation to create internally managed commingled funds for the purpose of holding the existing PUF and GEF's Private Investments and for the purpose of making additional investments or redeeming existing investments following the approach that the Marketable Alternatives Investments undertook in 2005. The ownership of such assets within the internally managed commingled funds shall at all times be vested in the Board of Regents, as a fiduciary. Vinson and Elkins, outside legal counsel for the Corporation, recommended that staff seek approval from the UTIMCO Board to create the internally managed commingled funds. Mr. Shoberg explained that in conjunction with the Board's approval the UTIMCO Board would be acknowledging that prior fund investments were approved by or presented to the Board as an initial capital amount of a specific named investment of the PUF and GEF, and further would be waiving the stated amounts and percentages previously authorized for investment by the PUF and GEF coincident with the creation of the internally managed commingled investment pools. Mr. Zimmerman, Mr. Shoberg, Ms. Iberg, Mr. Turner and Ms. Moeller answered the Directors' questions. Upon motion duly made and seconded, subject to Corporation staff briefing and approval of the change by The Texas A&M University System, the following resolutions were unanimously adopted:

RESOLVED, that the Board approves the creation of one or more internally-managed commingled funds, as necessary, for the purpose of pooling existing private investments currently held by the Permanent University Fund (PUF) and the General Endowment Fund (GEF), and for the purpose of making additional private investments or redeeming private investments; and, be it further

RESOLVED, that the foregoing resolutions shall be implemented in accordance with the recommendation of the Corporation staff submitted to the Board and shall supersede all prior resolutions of the Board to the extent any such resolutions authorized a private investment for only the PUF or the GEF or prescribed a stated amount or percentage of a private investment for the PUF or the GEF.

### **Policy Committee Report**

Mr. Rowling stated that the Policy Committee met on January 23, 2008. At the meeting, the second draft of the Securities Lending Policy was discussed at length. Mr. Rowling asked Mr. Zimmerman to give a brief summary of the proposed Policy. Mr. Zimmerman explained that the staff took a very conservative approach in implementing the management of the Securities Lending program and carefully structured a Securities Lending Agreement with its master custodian, Bank of New York/Mellon. The Committee discussed the level of risk that should be adopted when implementing the program and felt comfortable with the current Policy; no action by the Committee was necessary. Mr. Zimmerman will meet with the UT System Office of Finance, Bruce Myers of Cambridge Associates LLC, and the master custodian to determine if anyone has a more conservative policy and whether changes should be made to the Policy.

Mr. Rowling reported that two other items were discussed by the Policy Committee: proposed changes to (1) the Master Investment Management Services Agreement ("IMSA") and (2) the Bylaws. Mr. Zimmerman stated that minor changes to the IMSA were suggested by Staff and UT System, including deleting the date certain for annual review of the investment policies, and changing the references from the President to CEO consistent with current job titles. Mr. Zimmerman said that the Staff's proposed changes to the Bylaws closely mirrored the above mentioned changes to the IMSA. Mr. Rowling recommended the changes to both polices be approved. Upon motion duly made and seconded, the following resolutions were unanimously adopted:

RESOLVED, that the Master Investment Management Services Agreement with UTIMCO ("IMSA") be, and is hereby, approved in the form submitted to the Corporation's Board, subject to approval by the Board of Regents of The University of Texas System; and, be it further

RESOLVED, that amendments to the Bylaws of the Corporation as presented be, and are hereby, approved, subject to approval by the Board of Regents of The University of Texas System.

Mr. Rowling informed the Board that he asked the Staff and the Policy Committee to review the Code of Ethics. Mr. Rowling stated that the Corporation's Code of Ethics is more restrictive than state law requires and requested that the Policy Committee, Mr. Zimmerman, and Mr. Turner review and discuss the Code of

Ethics and present recommendations regarding changes to the Code of Ethics to the Committee at its next meeting.

### Risk Committee Report

Mr. Rowling asked Mr. Tate to give a report from the Risk Committee. Mr. Tate informed the Board that the Risk Committee last met on January 23, 2008. The items discussed at the meeting were risk reporting, Investment Mandate Categorizations, the Procedure for Calculating Liquidity, and proposed changes to the Charter of the Risk Committee. Mr. Tate explained that although the new Mandate Categorization Procedure ("Procedure") had been approved by the Board at the November 29, 2008 meeting, the Committee requested Staff to amend the Procedure to require that Staff report, at the next scheduled Risk Committee, any re-categorization of an Asset Class or Investment Type of an existing mandate whenever re-categorization is warranted. A revised version of the Procedure and resolution related to the Mandate Categorization Procedure was handed out at the meeting. Mr. Tate continued by explaining that the Staff presented to the Committee for their review and approval the initial categorization by Asset Class and Investment Type for all mandates since adoption of the Procedure. Mr. Zimmerman summarized the results of the initial categorization for all mandates prepared by the Staff. Mr. Zimmerman answered the Committee Members' questions and expressed appreciation to Philip Aldridge, Amy Barrett, and William Huang of UT System for their assistance in this process.

Mr. Tate reported that the Committee also reviewed the Procedure for Calculating Liquidity and proposed changes to the Charter of the Risk Committee. Mr. Tate recommended on behalf of the Committee that the Board approve the Procedure for Calculating Liquidity and the amendments to the Charter of the Risk Committee. Upon motion duly made and seconded, the following resolutions were unanimously adopted:

RESOLVED, that the Procedure for Calculating Liquidity be, and is hereby, approved in the form submitted to the Corporation's Board of Directors; and, be it further

RESOLVED, that the amendments to the Charter of the Risk Committee, as recommended be, and are hereby approved in the form submitted to the Corporation's Board of Directors.

Mr. Tate also recommended approval, on behalf of the Committee, of the proposed amendments to the Mandate Categorization Procedure. Upon motion duly made and seconded, the following resolution was unanimously adopted:

RESOLVED, that the amendments to the Mandate Categorization Procedure be, and are hereby, approved in the form submitted to the Corporation's Board of Directors.

### Compensation Committee Report

Mr. Rowling asked Mr. Ferguson to present the Compensation Committee report. Mr. Ferguson stated that the Committee met today, prior to the Board meeting. Mr. Ferguson said that Staff made a

recommendation to the Committee, as required by the Corporation's Compensation Program, setting forth the position of Director – Natural Resources as an Eligible Position and requested approval for the Weightings of Performance Goals, and Incentive Award Opportunities for that Eligible Position and selection of Mark Warner as a Participant in the Plan for the 2007/2008 Performance Period. The Compensation Committee approved the recommendation subject to further approval from the Board. Upon motion duly made and seconded, the following resolutions were unanimously adopted:

Mr. Zimmerman stated that Staff was still in communication with Cambridge Associates and asked that the Cambridge Contract Renewal agenda item be deferred.

The Directors briefly discussed the current market environment prior to adjournment. Mr. Rowling expressed an interest in holding an offsite retreat with guest speakers in the future. There being no further business to come before the Board of Directors, the meeting was adjourned at approximately 3:05 p.m.

UTIMCO Board of Directors Meeting April 25, 2008

Agenda Item:

Discussion and Appropriate Action on Items from Risk Committee including Recommendation of Distribution Rates for the Investment Funds

Developed By:

Staff

Presented By:

Tate

Type of Item:

Action required by UTIMCO Board related to Recommendation of Distribution Rates for the Investment Funds; other items are discussion items

**Description:** 

The Risk Committee ("Committee") will meet on April 15, 2008. The Committee's agenda includes (1) review and discussion of risk reporting; (2) review and discussion of compliance reporting; (3) discussion and appropriate action related to categorization of new investment mandates; and (4) discussion and appropriate action related to recommended distribution rates for the Permanent University Fund (PUF), Permanent Health Fund (PHF), Long Term Fund (LTF), and Intermediate Term Fund (ITF).

Discussion

The Committee will review the quarterly risk reporting and compliance reporting.

The Committee will review and approve or re-categorize, as appropriate, the mandate categorizations prepared by staff through March 31, 2008, that had not been previously presented to the Committee. The Mandate Categorization Procedure ("Procedure") was adopted by the UTIMCO Board on November 29, 2007. The purpose of the Procedure is to provide greater transparency into the process of classifying an investment mandate within the approved Asset Classes and Investment Types as defined in the Investment Policy Statements for the PUF, GEF and ITF (collectively, the "Funds"). The Investment Policy Statements state that the assets of the Funds shall be allocated among a broad set of Asset Classes and Investment Types based on their individual/risk characteristics and relationships to other Asset Classes and Investment Types. The Procedure requires that all new mandates be categorized by the Managing Directors, and that the Chief Compliance Officer provide the Chief Investment Officer his/her agreement or recommended categorization, after which the Chief Investment Officer will designate the Asset Class and Investment Type for the Committee's approval or re-categorization. The Committee will report to the UTIMCO Board the results of its review of the Investment Mandate Categorizations.

In addition, the Committee will review the proposed distribution rates for the Funds. Each of the Funds' respective Investment Policy Statement provides the guidelines to calculate the distribution amount or rate and provides the spending policy objectives of the Fund. The recommendations for the distribution amount and payout rates are discussed in the attached Recommendation of Distribution Rates and are based on the Investment Policy Statements.

# **Recommendation of Distribution Amount and Rates**

### **PUF**

The Permanent University Fund ("PUF") Investment Policy states that the annual distribution from the PUF to the Available University Fund ("AUF") shall be an amount equal to 4.75% of the trailing 12 - quarter average of the net asset value of the Fund for the quarter ending February of each fiscal year unless the average annual rate of return of the PUF investments over the trailing 12 quarters exceeds the Expected Return by 25 basis points or more, in which case the distribution shall be 5.0% of the trailing 12 - quarter average. "Expected Return" is the Expected Annual Return or Benchmarks set out in Exhibit A to the PUF Investment Policy Statement.

As shown in the table below the average annual return of the PUF investments for the trailing twelve quarters ending February 29, 2008 has exceeded the Expected Return by 25 basis points or more (.25%) as set out in Exhibit A to the PUF Investment Policy Statement.

	Quarters Ending February 29, 2008	Expected Return	Excess Return

FY 2008-09 Distribution	\$	530,932,622

Article VII, Section 18 of the <u>Texas Constitution</u> requires that the amount of distributions to the AUF be determined by the Board of Regents of The University of Texas System ("Board of Regents") in a manner intended to provide the AUF with a stable and predictable stream of annual distributions and to maintain over time the purchasing power of PUF investments and annual distributions to the AUF. The Constitution further limits the Board of Regents' discretion to set annual PUF distributions to the satisfaction of three tests:

1. The amount of PUF distributions to the AUF in a fiscal year must be not less than the amount needed to pay the principal and interest due and owing in that fiscal year on PUF bonds and notes. The proposed distribution of \$530,932,622 is substantially greater than PUF Bonds Debt Service of \$189,364,986 projected for FY 2008-2009.

System	Debt Service
U. T. System	\$ 110,464,986
TAMU System	78,900,000
Total	\$ 189,364,986

Sources:

U. T. System Office of Finance

Texas A&M University System Office of Treasury Services

2. The Board of Regents may not increase annual PUF distributions to the AUF (except as necessary to pay PUF debt service) if the purchasing power of PUF investments for any rolling 10-year period has not been preserved. As the schedule below indicates, the average annual increase in the rate of growth of the value of PUF investments (net of expenses, inflation, and distributions) for the trailing 10-year period ended February 29, 2008 was 2.81%, which indicates that the purchasing power test was met.

Average Annual	Percent
Rate of Total Return	8.37%
Mineral Interest Receipts	1.67%
Expense Rate	(0.25)% (1)
Inflation Rate	(2.72)%
Distribution Rate	(4.26)%
Net Real Return	2.81%

- (1) The expense rate as shown is a ten-year annualized average rate and includes all PUF Investment and PUF Land expenses, including the UTIMCO management fee, paid directly by the PUF. Prior to November 29, 1999, expenses related to PUF Investments and PUF Lands were paid from the AUF. Management fees that are netted from asset valuations, and are not paid directly by the PUF are not included, as they are a reduction to the Rate of Total Return.
- 3. The annual distribution from the PUF to the AUF during any fiscal year made by the Board of Regents may not exceed an amount equal to 7% of the average net fair market value of PUF investment assets as determined by the Board of Regents, (except as necessary to pay PUF bonds debt service). The annual distribution rate calculated using the trailing 12 quarter average value of the PUF is within the 7% maximum allowable distribution rate.

### LTF AND PHF

The spending policy objectives of the Permanent Health Fund ("PHF") Investment Policy Statement and the Long Term Fund ("LTF") Investment Policy Statement are to:

- A. provide a predictable stable stream of distributions over time;
- B. ensure that the inflation adjusted value of the distributions is maintained over the long-term; and
- C. ensure that the inflation adjusted value of the assets of the PHF and the LTF, as appropriate, after distributions is maintained over the long-term.

The spending formula under the LTF Investment Policy Statement and the PHF Investment Policy Statement increases distributions at the rate of inflation subject to a distribution range of 3.5% to 5.5% of the average market value of the LTF assets and PHF assets for each fund's respective trailing twelve fiscal quarters. The Board of Regents has full authority to alter distributions rates at their sole discretion.

We are recommending a 3.2% increase in the LTF distribution rate from \$0.2929 to \$0.3024 per unit. The increase is recommended based on the LTF's Investment Policy to increase the distributions by the average rate of inflation for the trailing twelve quarters. The LTF's distribution rate calculated using the prior twelve quarter average value of the LTF is 4.4%, within the range of 3.5% to 5.5% set forth in the LTF Investment Policy. The increase in the consumer price index for the prior three years as of November 30, 2007, was 3.2%.

We are recommending a 3.2% increase in the PHF distribution rate of \$.0511 to \$.0528 per unit. The PHF's distribution rate calculated using the prior twelve quarter average value of the PHF is 4.3%, within the range of 3.5% to 5.5% set forth in the PHF Investment Policy.

### **ITF**

We are recommending that the distribution rate for the Intermediate Term Fund remain at 3.0% for fiscal year 2009.

**Description:** 

The Compensation Committee (the "Committee") met on April 1, 2008. The Committee's agenda included (1) Discussion and Review of UTIMCO Peer Group; (2) Discussion and Review of Compensation Policy and Plan Review; (3) Discussion and Review of Performance Measurement Standards for Compensation Program;

and (4) Discussion of Employee Benefits

Recommendation:

Discussion:

The UTIMCO Compensation Program ("Compensation Program") currently has a Peer Group as part of the entity performance measurement. The peer group is a group of endowment funds maintained by the Board's external investment advisor that is comprised of all endowment funds with assets greater than \$1 billion on the last day of each of the three immediately preceding Performance Periods and set forth on Appendix B of the Compensation Program; provided, however, that Harvard University's endowment fund, Yale University's endowment fund, and Total Endowment Assets are excluded from the Peer Group. The Peer Group is updated from time to time as deemed appropriate by the Board. Cambridge Associates determines the Peer Group on an annual basis. The Committee discussed the appropriateness of the current methodology for determining the performance Peer Group and reviewed considerations presented by both Bruce Myers of Cambridge Associates and Nanci Hibschman of Mercer. Further discussion on the performance Peer Group will continue at the next Committee meeting.

Additionally, the Compensation Program requires that salary range midpoints for key management, investment, and operations positions be updated at least every three years based on a salary benchmarking study conducted by a qualified compensation consultant selected by the Compensation Committee. Mercer was selected as the compensation consultant at the November 15, 2007, Compensation Committee meeting. As part of the salary benchmarking study, Mercer utilizes a peer group to benchmark the UTIMCO staff against. Nanci Hibschman presented Mercer's recommended peer group related to the salary benchmarking study. discussion, the Committee decided upon a peer group for the salary benchmarking study.

The Committee also reviewed and discussed Mercer's incentive plan design draft, including preliminary recommendations. Mr. Ferguson will update the Board on the Committee's progress related to the plan design.

Agenda Item:

Discussion and Appropriate Action Related to Investment Consultant Contract Renewal

Developed By:

Staff

Presented By:

Zimmerman

Type of Item:

Action item by UTIMCO Board to approve contract renewal.

**Description:** 

In accordance with the Delegation of Authority, the UTIMCO Board executes the investment consultant contract. The UTIMCO Board approved retaining Cambridge Associates as its investment consultant during its September 22, 2006, board meeting. This agenda item renews the contract expiring on November 30, 2007. The renewal contract is for the twelve month period beginning December 1, 2007.

Recommendation: Staff recommends the approval of the external investment consultant contract.

Discussion:

Cambridge Associates has served as UTIMCO's consultant since its inception in 1996. Under the terms of the current contract with Cambridge, UTIMCO receives access via the Cambridge Associates consulting team and Cambridge Associate's web site to proprietary databases on capital markets, investment managers, and partnerships (including marketable alternative asset managers). UTIMCO also has access to comparative peer performance data and quarterly and annual surveys of investment and financial data. Also included in the contract is 24 hours of consulting time, a variety of research reports and working papers on investment and financial data, and attendance at UTIMCO Board and Committee meetings.

The prior Cambridge Associates contract was for \$650,000 annually. The renewal contract proposed by Cambridge is \$310,000 annually, a net decrease of \$340,000. The non-marketable services provided have been reduced to a specialist consultant format. The current team of consultants will remain available on a monthly basis via telephone to serve as a sounding board for ideas sourced by UTIMCO's staff. In the prior year contract, Cambridge Associates provided UTIMCO's staff with access to a proprietary database of US Venture Capital and Private Equity benchmark statistics. UTIMCO's staff also had the option of requesting up to four due diligence memos providing summaries of references, highlights of competitive advantages, and other issues for consideration related to specific managers.

The general consulting services have also been reduced. A comprehensive asset allocation review was not included in this year's contract. In addition, the attendance at the Board and committee meetings has been reduced from eleven in person and two conference calls to eight meetings (six in person and two via conference call.)

Additional consulting services, if any, will be provided and billed at Cambridge Associate's standard fees.
